

I urge you to promote a diverse, balanced, and competitive media. Please stop the vote on media consolidation on June 2nd and allow a public debate on the matter. The public should be allowed a proper hearing.

We allow media companies to use the airwaves in exchange for their assurance that they're serving the public interest, and it's the FCC's job to make sure that's so. I want to hold the FCC to its mandate and oppose the rule change.
